

HAT BOXES QUILT

The instructions for the *Hat Boxes Quilt* start on page 83. The templates and appliqué shapes for the quilt are shown here at 50 per cent of their actual size; enlarge 200 per cent for

the correct size. Templates K (square), J and J reverse (trapezoids) are overlapped and shown in the positions they will be in once sewn together; this is so that the appliqué can be shown in its final position.

Once enlarged, the hat box block below should measure 12½in x 12½in (31.7cm x 31.7cm) including the seam allowance.

See page 84 for how to cut and sew on the appliqué pieces.
